## **DETAILED ACTION**

### ***Response to Amendment***

Examiner acknowledges response by applicant's representative received 4/6/2000. Examiner further acknowledges the addition of claims 14-16 for prosecution.

### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species of the claimed invention:

- Figures 1 & 2 are drawn to species I
- Figure 3 is drawn to Species II
- Figure 4 is drawn to Species III

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 generic.

Art Unit: 3711

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

### ***Response to Arguments***

Applicant's arguments filed 2/2/05 have been fully considered but are moot in view of the aforementioned response.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ***Dolores R. Collins*** whose telephone number is ***(571) 272-4421***. The examiner can normally be reached on 8.00 A.M. - 4:30 P.M..
